Books, Videos & Resources to make inclusion, diversity and
community a reality for the future of all our citizens.
The Catalogue with Heart...

The Books and Videos of Inclusion Press and soon a CD-ROM...

The books and videos in this catalogue are published and/or distributed by Inclusion Press. We finally produced this catalogue because of requests we received from people who want to know more about our materials and about Inclusion, Community, Diversity and Change. We are very proud of each item and hope our readers will find them useful in their work. If you are in any way unhappy with a product please return it at your own cost (in good condition) and we will refund your money. We know most of our customers are very satisfied with our work. We thank them in advance for their support. We enjoy hearing by voice mail, fax, and e-mail what you think of our products.

When we began Inclusion Press in 1990 our friend, colleague and mentor, Bob Perske advised us to publish one or two things each year that we really loved. That way our Press would have integrity. We have followed Bob's advice and have over the years built a small but treasured set of books and videos that are used all over the world and which will hopefully help families, individuals and organizations to make the world a place for all of us. If you have any questions, we try to have someone available within 48 hours. You might get a lively message on our answering machine when you call, but you'll always get a personal call back from Marsha, Jack or Cathy.

Who are books and videos for? We give an audience description at the end of each title, but overall, our materials are for everyone passionate about social change towards communities where all are welcome. Our topic is not disability, but the human condition. We believe our work is relevant for anyone seeking to deal with those we have traditionally excluded. Our work is for ALL! And yes, "All Means All!"

People ask, "Who is your competition?" We were taken aback at first. It's a good question. Our response: "We don't have any competition. We are one of many small publishing ventures putting out good materials on issues that passionately concern

us and our readers. We cooperate and collaborate with others who share our vision and values. We don't want and don't need to compete."

That's why our catalogue recommends resources from other places. No one pays for these listings. We don't do traditional advertising. And our list is certainly not exhaustive. If we have inadvertently left out places or people you think we should include, please let us know.

Most of all we hope you find our catalogue challenging, inspiring, practical, useful, usable, and chock full of "stuff" that will help you, your family, your community, your workplace, your life in general - to be more creative, more fun, more thoughtful, more colourful, more musical, more challenging, more inclusive, more diverse, more of whatever you hope it will be.

Our aim is to make the world a better place for all. Our motto: "All Means All!"

Welcome to Inclusion Press. We hope you enjoy our new catalogue - A Catalogue with Heart.

Our Person Centered Planning TOOLS: Path, Maps, Circles...

PATH: A Workbook for Planning Positive Possible Futures Planning Alternative Tomorrows with Hope for Schools, Organizations, Businesses and Families

by Jack Pearpoint, John O'Brien and Marsha Forest

56 pages, Softbound from Inclusion Press, ISBN 1-895418-10-0 \$15.00

This is the 'hot' item from our Press. If you say you are interested in, and/or using PATH, this is a must. It goes along with the PATH Training Video and the PATH in Action Video. Our workbook is being used by groups all around the world and is sold individually or in bulk so that each member of the PATH planning event can have a copy. It is 60 pages and includes a color graphic of a real PATH.

The book outlines the PATH process in depth and is according to those doing PATH 'indispensable'. One reader said "no matter how many PATHS I do I always take it with me." PATH is a creative

planning tool which starts in the future and works backward to an **outcome** of first steps that are possible and positive. It is excellent as a team building tool and has been used to mediate conflicts. It is loved by people who actually want to change the usual ways in which they currently work. Any groups teaching PATH as a tool will hopefully have a copy for each person.

Audience: Anyone doing PATH. Relevant for all ages and all populations. Now in use by architects, small business firms, medical professionals, as well as educators and human service providers.

Book

PATH in ACTION Working with Groups

Producers: Inclusion Press & Yellowknife Educ. Dist.1 (65 min.) \$100.00

We recommend **Path in Action: Working With Groups** as the essential **Path Training Video**. It is one hour, and demonstrates 'setting the tone', 'setting boundaries', and the 8 Path Steps which conclude with an immediately 'do-able' first action step.

The tape is an edit of two Paths, one done with the high school students in Yellowknife, NWT, and the second with the administrators in the same school district - planning the future of a school system. It took courage for Superintendent of Education, Dr. Ken Woodley, to invite a camera crew to record three days of intensive

future planning. This is an honest and intense edit of those three days. The video composite cuts back and forth between the two PATHS and shows real examples of tension, conflict, negotiation, energy and vision. If you are dealing with change - this video is a must watch. A transcript of the PATH accompanies the video.

Audience: Essential for anyone and everyone doing, using or training with Path. Human service, educators, families, facilitators, advocates, administrators, general audience, anyone involved in "Change".

The PATH Training Video: Joe's PATH

Video Produced by Jeff Dobbin, Parashoot Productions (35 minutes) \$75.00

PATH was developed by Jack Pearpoint, John O'Brien and Marsha Forest

This video takes the viewer through the steps of PATH. Path was designed to deal with complex issues for individuals, families, organizations. We have used PATH with medical practitioners, architects, schools, individuals and families. It is a sharp and powerful tool that gets people to doable first steps based on taking them into the North Star future many generations ahead, then creating a possible and positive future one or two years ahead and then coming back to now. The PATH then asks who do we need to enroll if we are really going to get anywhere, and what do we need to actually do to stay strong enough for the

journey. Then we go into the future again and plan six months, three months, one month and finally our first steps to get us on the PATH. The video describes each step and uses a young man with cerebral palsy as the focus person as he plans his transition from an institutional setting to a life fully in the community. Although the video uses Joe as an example of the process it can be easily transferred to any situation.

Audience: A must see for anyone using PATH, or doing training with PATH. Use with the Path Workbook.

The PATH Demonstration Video

Produced by the Center for Ministry with Disabled People and School of Education, University of Dayton.

Narrated by Marilyn Bishop (58:30 minutes)

\$55.00

This is an excellent example of a PATH with a group of school administrators, human service providers and families who want to create an inclusive school system. The video was filmed during a workshop for professionals and families at the University of Dayton in Dayton, Ohio. Marsha Forest and Jack Pearpoint go through each step of the process in detail and there is

also an excellent commentary by Marilyn Bishop throughout the video. This will be best utilized after the first two training videos.

Audience: School and human service systems who want to use PATH for building inclusive school and other community systems, families, advocacy groups.

Video

All Means ALL:

An Introduction to Circles, Maps and Paths

Featuring Marsha Forest and Jack Pearpoint

Produced by the Video Journal of Education (33 minutes) \$100.00

We are thrilled that this video is now available. This video puts the contents of the books *All My Life's A Circle*, *Action for Inclusion*, *The Inclusion Papers* and the *PATH Workbook* into living colour.

One of the scenes, beginning *Circle of Friends* in a Canadian high school setting, goes through the MAPS mandala, and has a moving PATH done in New Mexico with a parent and her school team. This is a perfect introduction to

the tools and can be followed up with the *MAPS Training Video* and the *PATH Training Videos*.

The video is fast paced and creatively produced using excellent music and graphics. It travels across Canada and the U.S. to show that inclusion is not an ideal but a reality in many school systems across North America.

Audience: Educators, advocates, people working in human service, human rights, diversity, community...

Video

Dr. Michael Fullan, Dean of the Faculty of Education, University of Toronto writes:

"I just viewed the inclusion tape which is great. Congratulations to you and the Lintons. This tape is an important resource for all those struggling with the concept and the realities of inclusion. It presents a clear and inspiring vision and rationale about the true meaning of inclusion, which dispels a lot of the myths and misunderstandings. At the same time it provides us with powerful tools and proven guidelines for action which have been used successfully by many educators."

Together We're Better

A Set of Three Tapes

Produced by Comfority Mediaconcepts

\$175.00

This exciting and useful three part staff development series was filmed at a workshop done by Marsha Forest, Jack Pearpoint and Judith Snow in Chicago in 1992 and it is as relevant today as it was then. It is being used by school systems and human service organizations worldwide to introduce staff and families to the concepts pioneered by Marsha, Jack and Judith. As Marsha, Jack and Judith can't always be everywhere they are invited, this three tape set brings the three of them and an exciting event right to your own door step. Tape 1 (one hour) is an Introduction to Inclusion - using Jack's exciting graphics this is a dynamic lecture by the three speakers, Tape 2 (37 minutes) focuses on strategies for making

inclusion happen—The Six Thinking Hats (Edward DeBono) is introduced as well as the Circle of Friends concept. Tape 3 illustrates an introductory look at a MAP and a PATH (24 minutes).

We get great feedback on this video as a way to do staff development and team building for inclusive community. It is an excellent way to get the ball rolling and can be followed up by the MAPS and PATH Training Videos. Books that compliment the video series are *Action for Inclusion*, *The Inclusion Papers*, *All My Life's A Circle* and *The Path Workbook*.

Audience: Staff development for school systems and human service organizations. All ages.

MAPS: Making Action Plans

All My Life's A Circle Using the Tools: Circles, MAPS and PATH

New Expanded Edition

M. Falvey, M. Forest, J. Pearpoint and R. Rosenberg
111 pages. Softbound from Inclusion Press. ISBN 1-895418-26-7

\$15.00

The first 5000 copies sold more quickly than we ever imagined. Now we have expanded this popular book which captures the essence and spirit of three creative and exciting tools used by many schools and organizations who want to build innovative and quality education or human service systems that truly meet the needs of the people being served.

The book gives a glimpse of the 3 tools (MAPS, PATH and Circle of Friends) and outlines the key points. Stories and graphics illustrate the text and add depth to the tools described.

The new expanded edition has several important additions including the 14 page transcript of the

MAPS Training Video and an important transcript of a talk by Judith Snow entitled "On Dreaming". Eleven additional articles by Marsha Forest and Jack Pearpoint also add depth to the book. The original work plus these new additions gives a clear picture of the tools in actual practice.

The video "All Means ALL" (p. 3) is a perfect compliment to this book. Also recommended are the **MAPS Training Video** (below) and the **PATH Action Pack** (p. 2) for those serious about using and facilitating these tools.

Audience: Educators and families, human service and advocacy organizations, anyone interested in MAPS, PATH & Circles of Friends.

Book

The New MAPS Training Video: Shafik's MAP Plus "Dreaming" with Judith Snow.

Created by Jack Pearpoint and Marsha Forest; Produced by Jeff Dobbin, Parashoot Productions; Facilitated by John O'Brien (40 minutes) \$75.00

Shafik Assante, a well known human rights activist from Philadelphia courageously opens his heart and his life in this unique video which is a high caliber training tape. The tape takes the viewer through each step of the MAPS process and discusses the steps in detail as designed by the authors. An eight minute segment by Judith Snow at the end of the video is a gem describing the heart of the process which is about "dreaming". MAPS is an eight step tool that collects information

about a person, a family, an organization and then designs a plan of action based on the information gathered. The questions are: What is the person's story or history? What are the person's dreams? What are the person's nightmares. Who is this person? What is the person good at (their gifts and talents)? What do we need to do to get to the dream and avoid the nightmare? And finally, what is our plan of action?

Audience: A must see for anyone doing, using or training in MAPS.

Action for Inclusion: How to Improve Schools by Welcoming Children with Special Needs into Regular Classrooms

by John O'Brien, Marsha Forest with Judith Snow, Jack Pearpoint and David Hasbury
54 pages, Softbound from Inclusion Press. ISBN 0-921031-07-6

\$15.00

This 55 page book is definitely the best seller of Inclusion Press. It is now in its fourth printing. It is short and jargon-free and describes in detail the Circle of Friends exercise and the MAPS (Making Action Plans) process. We strongly recommend it with the video, **With A Little Help From My Friends** and the **New MAPS Training Video**. This book is being used by school systems all around the globe. It is perfect for conferences and courses as it is short and filled with actual tips on how to develop an action plan (MAP) for including any child at risk of exclusion. It is not limited to any one label but for all children at risk at any age. Although it talks mostly about elementary and middle school age children we feel it is transferable to high school students and adults. A perfect handbook for large conferences and a text for courses.

Audience: Mostly school personnel and parents of children in school.

"This is an extraordinary plain language guide to inclusion. Nominally it is about education, globally it is a guide to building inclusive communities of living. It's not a tool -- it's a way."

John McKnight, Northwestern University.

"People call me every day asking for assistance in including children with challenges into regular schools and classrooms. I can think of no better resource or information than this book. Finally, I can give people information that is clear, concise, and represents years of experience and thought."

by Jack Pearpoint, Marsha Forest and Judith Snow

Kids Belong Together

Produced by People First Association of Alberta (24 minutes)

\$55.00

Video

The music alone is worth the price of this classic and still vibrant video featuring Father Pat Mackan working in schools in Alberta, Canada and building Circles of Friends and MAPS. The song "Kids Belong Together" has become an anthem of inclusion. The video is a celebration of friendship and shows the possibilities for change. Great and inspiring images of children

and teachers working together in schools. The book *Action for Inclusion* and *Inclusion Papers* goes well with this tape.

Audience: Educators, families and anyone interested in Circles of Friends and MAPS. Elementary and middle school focus.

Miller's MAP

Produced by Tim Cairns, Marsha Forest and Jack Pearpoint (33 minutes)

\$55.00

Video

This video is very popular with school systems and families. Although the sound quality is not as good as our other videos it doesn't seem to matter as the visual images of Miller and her family and friends is so powerful. Miller Cairns was in grade six when this video was made. She is a child who does not speak much but she and her friends get together to plan the curriculum together. The teacher, the principal, Miller's mom

and dad and other friends join in to work together to create a MAP for Miller. Miller's mom Melinda and her dad Tim give eloquent testimony to the dreams and nightmares they have for Miller. It is a powerful video on the issue of Inclusion, Friendship and MAPS.

Audience: Families, school systems (elementary and middle school focus.)

What's Really Worth Doing and How to Do It:

A Book for People Who Love Someone Labeled Disabled (Possibly Yourself).

by Judith Snow

223 pages Softbound from Inclusion Press ISBN 1-895418-38-0

\$15.00

This powerful combination, **From Behind the Piano** and **What's Really Worth Doing**, is being used around the world as a textbook in many human service programs. It is used by high school teachers, college professors and as a great human interest story. The Piano book (part 1) details the personal story of helping Judith Snow move out of an institution and into the community. A circle of support was born that not only helped Judith, but changed the lives of all involved. The message is powerful and simple: None of us can deal with a crisis alone. The book details the formation of the "Joshua Com-

mittee" - Judith's name for her Circle of Support. John O'Brien's 10 page afterward is a brilliant essay about the message of hope embedded in the book.

What's Really Worth Doing (Part 2 of this book) is essential reading for anyone involved in advocacy. It's great for courses and conferences. Judith says her book is about strategies to make it possible for people who are vulnerable to be more present and included in their communities. Her premise is that we must replace the thinking of disability with the thinking of "giftedness." If you want to know how to start to build support circles (i.e. circles of

friends), this is the book for you.

And now you get BOTH in one attractive book.

Audience: Human service organizations, families, advocacy networks and anyone interested in the depth of building circles of friendship or circles of support. High school and university courses in social science, social work, human relations and human service. A must for families and an inspiration for people with disabilities attempting to get out of any kind of institutional setting.

Dream Catchers and Dolphins Reaching Out In a Time of Crisis

by Marsha Forest and Jack Pearpoint Afterword: John O'Brien
338 pages, Softbound from Inclusion Press, ISBN 1-895418-36-4

\$15.00

A remarkable healing journey - via e-mail. Travel with Marsha and Jack as they reach out to their circle during their crisis with cancer. A book for anyone in any crisis. The message: Reach out for support by any means!! Foreword: Dr. Paul G. Levy, M.D., FRCP (C)

When breast cancer, then ovarian cancer, then breast cancer again became present in Marsha Forest's body, along with it came fear, anxiety, sadness, anger and a sense of helplessness. Faced with it all, Marsha and Jack did what they have always done. They recognized the aspects they had less control over, i.e. the presence of cancer. And, they identified the parts they

did have control over, namely, how they chose to live their lives and with whom they chose to share it. They chose to be present to their own experience: reflect on it, act on it, and share it with their network of friends. For those who were nearby, phone calls, visits, shared dinners and gab sessions on the back porch, all became vehicles for sharing these vital experiences. For those friends around the world who were separated by distance, letter writing in cyberspace via e-mail served as the intimate meeting place. **Dream Catchers and Dolphins** is a collection

of these cyberspace meetings that is filled with hope and inspiration. It provides us all with an opportunity for revitalization through remembering what is important in life. It points to the possibility of thriving through life's challenges by sharing our life and vulnerability openly with those we care about by any means available to us.

Audience: A book for anyone dealing with a life crisis. Perfect to give to a friend in crisis - cancer or any other life threatening issues.

With a Little Help From My Friends

Kids Belong Together

The point of inclusion is the belief that each of us is important, unique, sacred, in fact. We can only relate to others and begin to include them in our lives and our society if we have this primary belief....

For this discovery, people often need help from somebody who "walks with them," an accompanier. One of the most important factors for inner liberation is how we are accompanied. We must ask ourselves, "Who is walking with me?"

Jean Vanier

With A Little Help From My Friends

Produced by Marsha Forest and George Flynn

Total time 1 hour: Introduction 3:28; Part I, 21:24; Part II, 18:00; Part III, 17:24)

\$55.00

This classic video keeps selling as if it were brand new. The freshness of the video is in the voices of students who talk from their hearts about inclusion and building circles of friends. The video is in three parts. Part I shows the actual exercise of building a Circle of Friends. Part II shows a small group of students and teachers discussing the ins and outs of inclusion and circle building and the third piece "May's MAP" is an excellent example of a MAP done

with 12 year old students. The video focuses on the voices of the teachers and the students who tell us over and over again that inclusion must be done and that "it's really not that hard to do if you have 'A little help from your friends'." The book *Action for Inclusion* is a perfect complement to the video. If you don't already have it get it now as it is still one of the most inspiring pieces of video around.

Produced by the Institute on Disability, University of New Hampshire

\$55.00

Using the Dream Catcher symbol as their metaphor this short and inspiring film gets at the essence of helping people recapture their lost dreams and to start building Circles of Friends/ Circles of Support. The film is a series of beautiful images, personal stories and hope for the future. Features three young adults, Matt, Angie and Lisa and shows their families and circles planning and dreaming for the future.

Lisa whose voice is heard through her using facilitated communication is particularly moving as she herself talks about how important her circle is for her life. An inspiring and useful video for those working with teenagers and adults.

Audience: Educators, human service workers, families. Most useful for people working with teens and adult populations.

Circles of Friends

By Robert Perske Illustrated by Martha Perske

94 pages, softcover from Abingdon Press, ISBN 0-687-08390-7

\$25.00

In this warm, sensitive collection, Robert and Martha Perske offer true stories and issues to ponder, concerning **Circles of Friends** - friendships between people with disabilities and neighbors and school mates. Martha's drawings and Bob's stories are a perfect antidote to hopelessness and cynicism. This is a book about possibility and hope. They show how

these circles cut across age groups, generations, and races, and how the hearts and world views of everyone can be enriched. The emphasis here is on pure and simple friendship. A good beginning to learn the real and true meaning of building Circles of Friends.

Written in 1988, this book is still a fresh bouquet for the millennium.

When breast cancer, then ovarian cancer, then breast cancer again became present in Marsha Forest's body, along with it came fear, anxiety, sadness, anger and a sense of helplessness. Faced with it all, Marsha and Jack did what they have always done. They recognized the aspects they had less control over, i.e. the presence of cancer. And, they identified the parts they did have control over, namely, how they chose to live their lives and with whom they chose to share it. They chose to be present to their own experience: reflect on it, act on it, and share it with their network of friends. For those who were nearby, phone calls, visits, shared dinners and gab sessions

on the back porch, all became vehicles for sharing these vital experiences. For those friends around the world who were separated by distance, letter writing in cyberspace via e-mail served as the intimate meeting place.

Dream Catchers and Dolphins is a collection of these cyberspace meetings that is filled with hope and inspiration. It provides us all with an opportunity for revitalization through remembering what is important in life. It points to the possibility of thriving through life's challenges by sharing our life and vulnerability openly with those we care about by any means available to us.

Audience: A book for anyone dealing with a life crisis. Perfect to give to a friend in crisis - cancer or any other life threatening issues.

Book

YES! She Knows She's Here

by Nicola Schaefer

154 pages, Softbound from Inclusion Press, ISBN 1-895418-28-3

\$15.00

A Decade of Success!

On July 18th, 1986, days before her 25th birthday, Catherine moved from her parents' house into her own home. It was an exciting, somewhat anxious time, the culmination of about two years of planning and hard work on the part of many people. Everyone had been eager to help Cath create a home for herself where she would have both the necessary paid, live-in support and the freely given friendship and help of others living in the two upstairs apartments. Could such a novel arrangement work?

In succeeding years there have been wonderful times at 822 Preston, and many equally wonderful people have been - and in some cases still are - an important part of Catherine's life, and she of theirs. It hasn't always been perfect - what household is? - but

we can now say that it not only could work, it has worked, and we hope and believe it will continue to do so. This book celebrates Cath's 35th birthday and the 10th anniversary of her move. Meet her housemates, enjoy her life.

Bob Perske: We could call this book "Mothers Know Best." Nicola's instincts for her daughter guided and created a life for Catherine that not even Nicola imagined. If God had granted me the chance to choose my mother, I would have chosen Nicola Schaefer. Nicola is truly a great storyteller and this is truly a great story.

Audience: Anyone interested in building community and support networks around vulnerable people. Educators, human service providers, advocacy networks.

Gary Bunch and Angela Valeo

183 pages, Softbound from Inclusion Press ISBN 1-895418-30-5

\$20.00

For all of you who are asking the difficult questions that need to be answered with data and good quality research this is the book for you! You also probably know ten people to whom you will want to give it. We recommend that every undergraduate and graduate student in any course on education have this. We want every parent and advocacy organization to use this book as a resource. We want every library to have this title on their shelves.

Dr. Bunch, a respected professor of education at York University in Toronto and his research associate Angela Valeo, herself a classroom teacher, write in a readable and enjoyable style. They use the most up-to-date research to deal with topics such as socialization, paraprofessionals, instructional strategies, challenging behaviour,

effects of inclusion on the "other" students, teacher attitudes, academic achievement and more.

If you have anything to do with inclusive education either as a family member, teacher, researcher, or just plain interested citizen, this is a book to get immediately into your hands.

It uses plain language and is exciting reading. It is thought provoking, challenging and is based on real data in the real world of inclusive education worldwide. If you are doing research, or want to know what the research says, order this book today!

Audience: Anyone interested in inclusion or doing research on inclusive education. Teachers, graduate students, professors, university and college courses, advocacy organizations.

Each Belongs Thirty Years of Fully Inclusive Education in Hamilton, Ontario, Canada

Produced by Hamilton-Wentworth Separate School Board

length 15 minutes

\$55.00

The Hamilton-Wentworth Catholic District School Board has just celebrated 30 Years of **Fully Inclusive Education for All**. Their mission statement: "EACH BELONGS".

This fifteen minute video says it all. All children can be included - from elementary grades through to high school graduation - if we want and believe in a system where "EACH BELONGS". A stunning segment shows two high school students telling about their experiences. One is in a wheelchair. One is on his feet. Which one has benefited more will be your challenge in watching this warm, down to earth, authentic video put together by students and faculty. It is a gem. Show it to anyone who doubts that

inclusive education is possible. Listen to parents, teachers, and administrators who, without a shadow of a doubt, know that "Each Belongs." While many systems are still debating whether to welcome all children to their schools, Hamilton, under the leadership of Jim Hansen, Phil DiFrancesco and Betty Browne, has been doing it - with no extra budgets - for thirty years. Their secret is extra love and caring for all.

Audience: Educators and Families. Also human service and advocacy organizations. Anyone interested in MAPS, PATH & Circles of Friends.

**Action for Inclusion:****How to Improve Schools by Welcoming Children with Special Needs into Regular Classrooms**

by John O'Brien, Marsha Forest with Judith Snow, Jack Pearpoint and David Hasbury

54 pages, Softbound from Inclusion Press, ISBN 0-921031-07-6

\$15.00

This 55 page book is definitely the best seller of Inclusion Press. It is now in its fourth printing. It is short and jargon-free and describes in detail the Circle of Friends exercise and the MAPS (Making Action Plans) process. We strongly recommend it with the video, **With A Little Help From My Friends** and the **New MAPS Training Video**. This book is being used by school systems all around the globe. It is perfect for conferences and courses as it is short and filled with actual tips on how to develop an action plan (MAP) for including any child at risk of exclusion. It is not limited to any one label but for all children at risk at any age. Although it talks mostly about elementary and middle school age children we feel it is transferable to high school students and adults. A perfect handbook for large conferences and a text for courses.

Audience: Mostly school personnel and parents of children in school.

"This is an extraordinary plain language guide to inclusion. Nominally it is about education, globally it is a guide to building inclusive communities of living. It's not a tool - it's a way."

John McKnight, Northwestern University.

"People call me every day asking for assistance in including children with challenges into regular schools and classrooms. I can think of no better resource or information than this book. Finally, I can give people information that is clear, concise, and represents years of experience and thought."

Jan Nisbet, Director, Institute on Disability, Univ. of New Hampshire

The Writing on the Wall**

University of New Hampshire

Susan Shapiro-Barnard, Carol Tashie, Jill Martin, Joanne Malloy, Mary Schuh, Jim Piet, Stephen Lichtenstein, Jan Nisbet. Photographs by Gary Samson

\$15.00

This book is forty-four pages of photographs and uncompromising narrative. It has a bottom line: social justice must be extended to high school. Although inclusive education has taken a stronghold in many places, high school students with disabilities still face segregation more often than not. The format of the book is to have half a page dedicated to a sec-

tion called, "We used to think..." and the next column, "We now know...". For example, we used to think it was a good idea for students with disabilities to spend a portion of their day out in the community separated from their peers. We now know community based instruction is not the same as community service.

Audience: A must for anyone involved in high school education and with teenagers.

**Petroglyphs
We Used to Think. Now We Know**

The Institute on Disability, University of New Hampshire (12 minutes) \$55.00

Inclusion in high school. A wonderful new video from the UNH team - based on the photographs in the *Petroglyphs* book. Although inclusive education has taken a stronghold in schools on the continent, high school students with disabilities still face the real possibility of segregation. We used to think this was acceptable. We know now it is not. This video challenges existing beliefs and practices and advocates for change.

Petroglyphs is a collection of photographs taken over an eight-year period in high schools and colleges throughout New Hampshire. These photographs, coupled with thought-provoking narrative and distinctive music, reveal the many

benefits of including students with disabilities in regular high school and college settings.

Audience: Everyone engaged in or getting ready for inclusion in high schools and community colleges - students, teachers and families.

Created and Edited by: Ann Donoghue Dillon, Carol Tashie, May Schuh, Cheryl Jorgenson, Susan Shapiro-Barnard, Beth Dixon, Jan Nisbet. Photographs by Gary Samson. Foreword by Marsha Forest. Afterward by Rick Betz

\$15.00

The heart and soul of inclusion is captured in this beautiful book of text and photographs to celebrate inclusive education in New Hampshire. The title of the book comes from Rick Betz a Nashua High School student who told us with facilitated communication that "Friends are very important to me. They are the future treasures that, with proper guidance will grow." This little

book of 48 glossy pages is a treasure. The photos and the quotes that go with them need to be in every school and every home to remind us that what is possible in New Hampshire can happen in every state and province anywhere. This is a great gift for teachers or families.

Audience: All ages. Of particular interest to families and school systems.

\$15.00

As schools work to include all students in regular education classes and the doors of special education classrooms close, a new professional role emerges...the role of the Inclusion Facilitator. The purpose of this book is to provide guidance to Inclusion Facilitators. Each chapter includes anecdotal stories, discussion and strategies. There are pages on strategies for advocating for inclusion, for

facilitating family involvement, for facilitating peer supports and friendships, for modifying curriculum, for collaboration, for coordinating supports. This short book of 50 pages is chock full of both information and inspiring photos.

Audience: Anyone in the role of being an Inclusion Facilitator. Families who want to help their school systems. Every elementary and middle school.

Celebrating the Ordinary The Emergence of Options in Community Living as a Thoughtful Organization

by John O'Brien, Connie Lyle O'Brien & Gail Jacob

245 pages, Softbound from Inclusion Press ISBN 1-895418-34-8

\$20.00

Book

Inclusion Press would like to get this book into the hands of everyone involved in "Supported Living".

This book is a deep and compelling journey into the real issues of supported living. Before "Supported Living" became a familiar term, Options, a small organization in Madison, WI was attempting to personalize services and assist people to live in their own homes. That was twenty years ago. How this happened, and the complex stumbling blocks, is the subject of this book. It is the story of the passion, dedication and dreams of a remarkable group of people - both the staff and the people they serve. For some, this is a

book to read; for others, it is a thoughtful text worthy of in-depth study. 245 pages of brilliant analysis that will benefit anyone involved in supported living - ranging from directors to direct support staff.

Some of the issues explored include: From packages to people · Beliefs define the pattern · Avoiding the growth trap · Acknowledging difficulty · Signs of trouble · Relationships as a resource · Making funding flexible · Chewing on intractable problems · Nine enduring understandings ·

Audience: Anyone involved in supported living - building community - supporting change.

Members of Each Other Building Community in Company With People With Developmental Disabilities

by John O'Brien and Connie Lyle O'Brien

140 pages, Softbound from Inclusion Press, ISBN 1-895418-24-0

\$15.00

Book

Connie and John have written a beautiful 140 page book which is relevant for all of us who want to build friendships and community, not only for people with developmental disabilities but for ourselves. Members of Each Other exposes the dangers of power, of isolation, of helplessness and gives tried and true tools to help build the future. This collection particularly describes initiatives in three areas: linking people one-to-one (citizen advocacy); gathering people around helping a person define and

pursue a desirable future (circle of support); and assisting people to pursue their interests as members of community associations (connecting people to community associations). We are getting orders, from one to fifty copies, for university courses, seminars and conferences.

Audience: Anyone interested in building community and support networks around vulnerable people, educators, human service providers, advocacy networks.

The Careless Society Community and Its Counterparts.

by John McKnight

Published by Basic Books (194 pages)
\$20.00

Book

This is a must read for all fans of John McKnight. The chapters of the book were written over the last two decades when human service systems overwhelmed communities. Four counterfeiting aspects of society are analyzed: professionalism, medicine, human service systems, and the criminal justice system. The last two sections are on authentic citizen communities of care. This book of essays will provoke you to

think and reflect. It is a book that celebrates the ability of neighborhoods to heal themselves from within. McKnight shows how competent communities have become colonized and invaded by professional services with often devastating results. McKnight's belief is that the basis for resolving many of today's social problems is the community capacity of the local citizens. Whether you agree or disagree it is an excellent and thought provoking book.

This is a perfect accompaniment to the McKnight video: **Everyone Has a Gift.**

Audience: Anyone interested in the world in which we live and particularly in social issues that face communities, schools, workplaces, and human service organizations.

Everyone Has A Gift Building Communities of Capacity Video

Produced by Jack Pearpoint and Marsha Forest
with Jeff Dobbin of Parashoot Productions

(length 54:31)

\$75.00

Everyone who sees this video loves it. It is truly John McKnight at his finest. The video is a gem. John McKnight is the Director of the Community Studies Program at the Center for Urban Affairs and Policy Research at Northwestern University where he is a professor. Most of all John is a storyteller, a political philosopher, prophet and activist. This video is a moving talk about building communities where everyone can give their gifts as citizens. Community building for John McKnight is not a sentimental journey but a job to be done by citizens, neighbors, families and friends. A great compliment to the video is John's newest book **The Careless Society**.

Audience: Everyone involved in moving from a deficiency model or work to a capacity building model whether in communities, schools, workplaces, human service organization, the medical profession, probation and parole, adult education. Everyone!

It is one thing to agree that the goal of integration is morally and legally right; it is another thing to commit oneself positively and actively to the ideal of integration - the former is intellectual assent, the latter is actual belief. These are days that demand practices to match professions. This is no day to pay lip service to integration, we must pay life service to it.

When Spider Webs Unite Challenging Articles & Essays on Community, Diversity and Inclusion

by Shafik Asante

136 pages. Softbound from Inclusion Press.
ISBN 1-895418-32-1 \$15.00

Shafik Asante's book will

challenge you to

broaden the definition of inclusion and to look at the issues of oppression and liberation in a fresh and new way. The articles are short and punchy. Shafik speaks from the point of view of a community organizer, a human rights leader, and as a parent.

The book is divided into four theme areas including Alliance Building; Villaging; Inclusive Community Building; Disability Issues; Leadership and Organizing.

Shafik was an uncompromising advocate of the rights of those who are oppressed. *When Spider Webs Unite* is a book that every community organizer, teacher, leader, parent and citizen will want on their bookshelf. On those days when one feels down and tired and won-

dering whether change can and will really happen this is the book to pick up and read again and again.

Shafik gives us fresh and challenging definitions of inclusive community, inclusion, alliances, networks, leadership and diversity. You may not agree with everything he has to say but we guarantee you won't be bored or disengaged. The content of this book is electric.

The book is complimented by a video also titled *When Spider Webs Unite: Shafik Asante in Action*. Both the book and video are inspiring pieces of work to use at meetings, conferences or to watch with your own family. Shafik Asante leaves us a legacy of love and a lasting message of hope based on hard work and the intense organizing it takes to build better and more inclusive communities for the future.

Audience: Teachers, human service, community organizers, advocates, families.

When Spider Webs Unite Shafik Asante in Action

37 minutes (Includes 4 minute slide tribute finale) \$75.00

This 37 minute video will keep the work and spirit of Shafik Asante alive for years to come. We see Shafik in action - talking, laughing, challenging, motivating, inspiring. This video is a treasure for those of us who were fortunate enough to know Shafik personally and as well for those of you who never met him in person. Our friend, Dr. Budd Hall, who is the chairperson of the Adult Education Department at the Ontario Institute for Studies in Education, saw the tape and as it ended said, "Shafik is adult education's best kept secret. I must get this tape immediately for all my courses." Another friend who saw a preview of the tape said, "When can I get this? I have to show it at my next staff meeting. This man is awesome and we need inspiration and motivation to keep up the struggle these days."

Thirty minutes of Shafik speaking about inclusion, liberation, leadership and about youth and the future. He doesn't mince words. This is a hard hitting video where Shafik challenges us to make inclusive community happen or else betray it and each other.

Video

The final four minutes of the video is a slide show tribute to Shafik Asante. The South African Anthem "Mother Africa" from the film *Cry Freedom* plays in the background as photos of Shafik fill the screen along with his most favorite sayings, "What part of All don't you understand?", "If you build it they will come, If you bake it they will stay," and of course his favorite quotation "When spider webs unite, they can tie up the lion."

WHO CARES? Rediscovering Community

by David B. Schwartz

169 pages. Softbound from Westview Press. ISBN 0-8133-3208-7

\$20.00

Who Cares? is a wonderfully thoughtful book about finding more humane responses to people with developmental or physical disabilities. David looks at community driven responses rather than the typical social service/organizational reactions. David does not advocate the overthrow or dismantling of

social services, but instead proposes supplemental responses that will lead to richer, better lives for both recipients, caregiving individuals and the community.

Audience: Human service and general readers.

Book

Unequal Justice?

by Bob Perske

122 pages. Softbound from Abingdon Press. ISBN 0-687-42983-8

\$25.00

This extraordinary book looks at 'What Can Happen When People with Retardation or other Developmental Disabilities Encounter the Criminal Justice System.'

A man with retardation sat on the witness stand.

"Jerome, did you assassinate President Lincoln?"

"Yes," Jerome said

"Did you assassinate President Kennedy?"

"Yes," Jerome said.

Incidents like this demonstrate how people with retardation and similar disabilities - whether they are guilty or innocent - can often be shockingly defenseless when questioned under pressure in America's criminal justice system.

Presenting actual crime issues and cases, Perske casts fresh light on all the ways these persons can be misunderstood by criminal justice officials.

Audience: A must read for those who work with or care about persons with disabilities.

Some Other Books

Becoming Human by Jean Vanier

Anansi Press, 1998, Toronto, Ontario, Canada

In this provocative work, Jean Vanier shares his profoundly human vision for creating a common good that radically changes our communities, our relationships, and ourselves. He proposes that by opening ourselves to outsiders, those we perceive as weak, different, or inferior, we can achieve true personal and societal freedom.

Our society shuns weakness and glorifies strength. By embracing weakness, however, we learn new ways of living and discover greater compassion, trust and understanding. This spirit of inclusion has extraordinary implications for the way we live our lives and build our communities.

The Nature of Transformation

Environmental Adult and Popular Education

Darlene Clover, Budd Hall, Shirley Follen

The Nature of Transformation: Environmental Adult and Popular Education outlines social learning theories and ways in which environmental issues can be woven into the practice. It can be used by community activists and animators, teachers, professors, practitioners and so on in any workplace, school, or community learning situations. Chapters provide:

- a brief examination of some of the theories of adult, popular, feminist, environmental, and environmental adult and popular education,
- ideas for organising workshops within an ecological context and examples of agendas.

Safe and Secure Six Steps To Creating A Personal Future Plan For People With Disabilities

Published by: *Planned Lifetime Advocacy Network (PLAN)* You can order this book direct from PLAN - 104-3790 Canada Way, Burnaby, BC V5G 1G4

by Al Emanski with Jack Collins and Vicki Cammack

This book is an absolute must for every family with a son or daughter with a disability. It is actually a great book for any family. There are 149 pages of information to assist families to create a secure future for their children. The sole purpose of the authors was to create a book to inspire families to develop a Personal Future Plan, to guide families through the PLAN process and to offer practical tips and technical advice. The book is divided into six steps and seven worksheets to get you to a real and tangible plan. It encourages families to confront their fears and act on their dreams to take the necessary steps to create a safe and secure future for their sons and daughters.

Audience: Families and organizations who support families i.e. schools, advocacy groups, human service organizations, legal clinics, medical professionals.

And another PLAN book coming soon.

The Challenge of Change: Training for Guides

NEW COURSE based on our NEW CD ROM "The Challenge of Change"

Motto: "Have course; Will Travel." Locations: to be announced

The guides for this course are Jack Pearpoint and Marsha Forest. We offer tools for Creating an Energetic, Can-Do Culture for Surviving Change in Your Organization - slowly and surely. A four day intensive event for leaders, teams, organizations. Based on our new CD ROM, you can take the course home when you are done - including a collection of overheads, slide shows and text.

The focus is on tools, grouped in categories, that you can implement when you take them home. Examples:

- **Listening Tools:** Talking Stick Reflection, Neighborhood Rounds, Scuba Rules.
- **Team Building Tools:** The All Star Company, Making Meetings Matter.
- **Problem Solving Tools:** Solution Circles, The Four Questions.

All the tools are based on a strong vision of revisiting a vision and belief that ALL BELONG, ALL Can Be CREATIVE and PRODUCTIVE and EVERY-ONE Can Be a CONTRIBUTING MEMBER OF SOCIETY.

The Summer Season:

The Toronto Summer Institute on Inclusion, Diversity & Change

Hosts for the Learning Community include: John McKnight, Chicago; Marsha Forest, Jack Pearpoint, Judith Snow, Dave Hasbury, Toronto; Bahiya Cabral Asante, Nkosi Ali Asante, Philadelphia; John O'Brien, Atlanta; Wayne Helgason, Winnipeg; and special guest for one day Dave Hingsburger, Quebec.

We welcome 100 cutting edge learners to be co-thinkers in creating a unique one week Learning Marketplace event that builds a new kind of team learning community. Taste what education for the Year 2000 can look like and feel like. This is for current leaders in social services, education, health care, ecology, advocacy who are struggling with how to find practical and creative solutions to the complex problems of the day. **Warning:** This is not for people wondering whether and why to do it but how to get the work done to make everyone's lives more full and just.

"Where else could I have breakfast with an aboriginal group from Winnipeg, lunch with an amazing team from Scotland and dinner with my own team and all in one day. I did this for seven days and nights. What struck me was not any one talk or individual but the whole event. It is a taste of the future and a new way of being and working together. Bring a team - and take the learning home. A truly amazing experience." Educator, London, Ontario

Inclusion Press is a small independent press striving to produce readable, accessible, user-friendly books and resources about full inclusion in school, work, and community.

Our books are excellent resources for courses and conferences. Write/call for information on bulk rates for schools and voluntary/advocacy organizations. Inclusion Press can recommend packets of materials for your conferences, workshops, staff-development and events.

INCLUSION PRESS Reprinting Policy

WE ARE PLEASED FOR OTHER NON-PROFIT ORGANIZATIONS TO REPRINT ARTICLES FROM INCLUSION NEWS. ALL WE ASK IS THAT YOU CALL, FAX OR E-MAIL US AND LET US KNOW WHAT YOU ARE USING - AND IN WHAT PUBLICATION. WE WOULD ALSO APPRECIATE A COPY OF THE FINISHED PRODUCT FOR OUR FILES. IF YOU WANT TO REPRINT SOMETHING IN A PUBLICATION THAT WILL BE SOLD, PLEASE CONTACT US DIRECTLY.

PLEASE INCLUDE OUR COMPLETE PHONE, FAX, E-MAIL AND WEB SITE ADDRESS ON ALL REPRINTS SO PEOPLE CAN FIND US IF THEY WANT FURTHER INFORMATION.

COPYRIGHT: WE ASK YOU NOT TO COPY PARTS OF BOOKS. WE WILL GIVE ORGANIZATIONAL BULK RATES FOR BULK ORDERS. CALL TO DISCUSS.

Inclusion News The Inside Story

Inclusion News is the newsy and user friendly Newspaper of Inclusion Press that is published every two years. The purpose of the newspaper is to let our readers and friends know what we and the international network of people interested in inclusion and diversity is doing and thinking about. It is a tool for information and networking. We believe people from all over the world are enjoying this.

We do not sell **Inclusion News** in bulk but ask only that you either pay for shipment of boxes (150 copies per box approximately \$50 in most of Canada and continental United States.) Write us and we'll mail you a free sample copy. **Inclusion News** is a connector, a bridge-builder among like-minded kindred spirits all over the world. If you like it, let us know. Send us your articles and ideas.

Inclusion News is popular at large and small conferences. We can arrange to ship to your conference. Call us. We've done this with conferences of 400 to 4000. It is a great gift to find on your conference seat. People seem to enjoy the material, the spirit and the values in **Inclusion News**.

RESOURCES in Britain Inclusion Distribution UK

Kevin Reeves, a good friend in England, is now doing a great job distributing Inclusion Press books and videos in UK. Contact him - he is diligent about getting orders out.
