Gabbitude's Tips & Helpful Hints

- Take 10 minutes a day and just explore whatever app and device you are using. Practice makes a pattern!
- Create your own graphic recording brush palette with a couple different brush styles to show variety (brushes for titles, headings, body, people, icons, shading, etc.).
- Make your own color palette! Make sure to include different colors for titles, headings, body text, shading, icons, and razzle dazzle.
- Don't forget to PREP! The more you can do on the front end, the better!
- Practice your handwriting and drawing icons! Pinterest and Google are your friend in helping to find inspiration and practice sheets.
- Instagram is also your friend! Explore, get inspired, see what other folks are doing. Below are some hashtags and people to follow. You can find even more cool people to follow through hashtags.
